

REPORT OF THE YOUTH ORGANIZATION "STAN" FOR 2020

Back in early 2020, our team realized that it was time to develop a new, effective strategy for the organization.

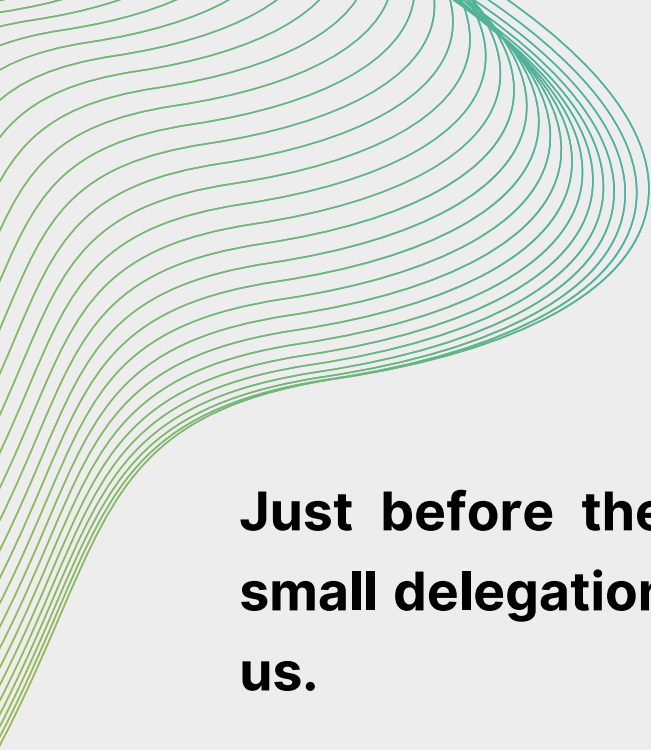

Already in March, we planned the first measures to develop organizational capacity, which, unfortunately, were canceled due to the coronavirus pandemic.

Just before the closure of the borders in March 2020, a small delegation of IM Swedish Development Partner visited us.

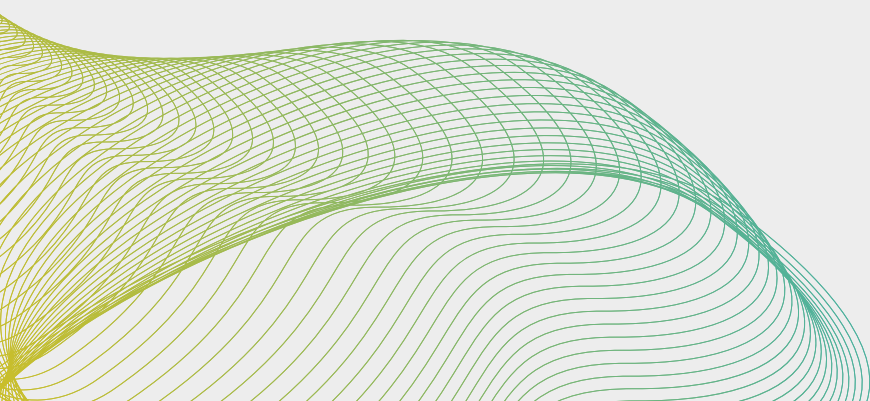

During a friendly tea party (in Swedish - fika), we finally realized that it is time for the youth organization "STAN" to move to a new level and become a real agent of change in the region and an example for others.

We conducted a retrospective analysis of the organization's activities for 2017-2020, assessing its own capabilities identified levels of development of the organization's potential and priority areas for growth. For 5 months, 2 strategic field sessions and 20 one-day strategic sessions were held with the participation of all members of the organization.

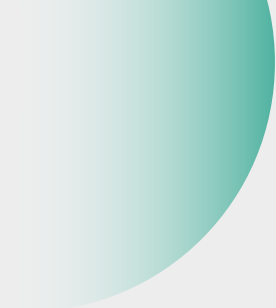

We analyzed our achievements on the shores of the Sea of Azov on Biryuch Island, dreamed of the future and set ambitious goals in the "Workshop House" on top of the Carpathian Mountains.

At our strategic meetings in the circle of the organization there was everything - and laughter, and sadness, and bold statements and difficult silence. Finally, the organization's strategy is ready for implementation for the next 5 years.

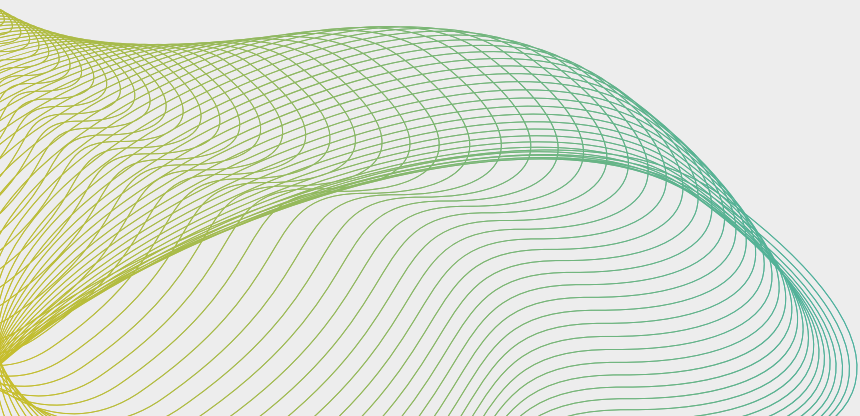

From now on, the youth organization "STAN" is moving in the right direction. We feel like a youth outpost of human rights and solidarity in the region, strengthening and developing the organization's institutional capacity to become an independent agent of change.

Our activities aim to form a culture of human rights and solidarity, celebrate diversity, strengthen intercultural dialogue and contacts between people, and encourage young people and conscious participation in decision-making.
